GOTOH 510T-FEZ TREMOLO SYSTEM

OPUS 400 "LIMITED EDITION" Series

Performance perfected. Revolutionary construction with the highest grade of components and hardware, the 400 "LE" Series brings the best in tone and performance.

GOTOH SGM-07 TUNING MACHINES

LEGATOR SEB SYSTEM

SEB / SOUND EFFECT BODY CONSTRUCTION

Unlike traditional 1 or 2 piece guitar bodies, Legator's patented SEB (Sound Effect Body) construction combines matching top and bottom woods with a third, cross-grained wood at its center. The vibrations created by strings in wooden instruments travel faster at the center of the body than they do at the top and back. By adding this cross-grained piece at the core, sound is reflected towards the top and back of the instrument four times faster than a standard guitar, dramatically increasing note clarity and sustain.
